Managing Workers Compensation with the Attorneys at Pyrros & Serres LLP

Hurt At Work? Let Us Help!

Accidents happen, even in safe work environments. We understand that work related injuries can be very frustrating, especially when they complicate paying the bills or supporting your family. Let us make managing your workers' compensation simple. Here are a few tips to help you work through the necessary steps.

Workers' Compensation Tips:

Tell Your Employer -

Don't wait to notify your employer of your work related injury or illness. Not only are workers' compensation insurers more likely to deny a claim that is not reported immediately, notifying your employer helps you get the medical treatment you need!

Get Medical Treatment -

Don't wait to schedule your appointment at the doctor or visit the emergency room. Insurers are more likely to cover your medical care if you seek immediate treatment.

Be Consistent -

Carefully fill out your accident report forms. Make sure you tell your supervisor and your doctor the same information. This will help make your case consistent.

Give Us A Call -

We are dedicated to making sure your claims are processed as quickly as the law allows. This will minimize income loss and get your medical treatment authorized quickly. We make sure that you are protected by all of your rights under the Workers' Compensation Law.

Fight Denial of Benefits -

If your workers' compensation claim has been denied, we can request a hearing with the New York State Workers' Comp Board. You may be entitled to monetary awards for your injuries and lost time from work.

If you or someone you love has recently been injured at work, we can help you get the timely compensation you deserve. Just call 718-626-1004 to contact us.

Sincerely,
The Attorneys and Staff at Pyrros & Serres, LLP
